

Seminar on *11 September 2015, Friday* **Legal Aspects of NEC3 Contracts: Principles and Practice**

CPD 0924/2015

(3rd intake in 2015 for Practitioners, Construction Professionals and Government Officials)

Co-organized with HKIE for CPD

The use of NEC3 contracts for public procurement is gaining much momentum in Hong Kong. With the innovation and principles of early warnings, compensation events and risk management procedures adopted, **the legal realities shown from decided cases overseas are of useful guidance to those in Hong Kong** adopting or planning to adopt the NEC3 on a wider spectrum of projects. This seminar aims at providing a critical review and update of the legal cases concerning the use of NEC3 contracts based on experience overseas. Through **discussion of hard lessons learnt**, the law and practice on areas that those involved need to be alerted to are highlighted. **We highly recommend participants to enroll themselves to our Contract Law Essentials seminar before taking this seminar.**
