*(Organised by IfE, supported by HKLTI)*

*Successfully Held on 8 December 2017*

Defective works are a common issue in construction contracts, but the law regulating them is becoming more and more complicated. This seminar will provide an overview and update of the legal aspects concerning defective construction works. It will use case studies to examine the law and its practice, and will highlight areas that those involved need to be alerted to.

The Seminar on “Legal Aspects of Defective Works” was successfully held on 8 December 2017. The visiting lecturer was **Mr. Duncan Ho, Barrister-at-Law.**
