

Webinar on NEC4 2020 Amendments – reason for and Key Changes

(Co-organised by NEC & HKLTI)

Successfully Held on 31 May 2021 (Monday)

In October 2020 NEC published a second set of amendments to the June 2017 suite of NEC4 Contracts. The amendments were published to reflect legal developments and in response to user and industry feedback on the newly published NEC4 suite as well as suggestions for further enhancements.

This online webinar will be providing the opportunity to explain these amendments in more detail - why they were introduced and the key changes – as well as allowing NEC users' to ask any questions they have to our panel of experts.

This engaging and interactive session will provide an ideal platform for anyone who wanted further clarification on the recent changes or who wanted to submit further feedback.

NEC Users' Group members enjoy free and discounted spaces to our online event programme.

The Seminar on “Construction Claims and Contract Management” was successfully held on 15 April 2021. The visiting lecturer was **Mr. Robert Gerrard, Senior NEC consultant and Secretary, NEC Users' Group Accredited Mediator and Dispute Resolution Adviser.**
