

## Seminar On Fundamentals of Negligence for Managers and Professionals

Successfully Held on 31 March 2016

Tort of negligence is at the heart of today's business management. Yet, the guiding principles must be properly understood for avoiding legal traps and pitfalls in various business settings and for getting liability control.

By reviewing recent representative cases, the legal principles of tortious liabilities and their implications in practice upon the effective administration of common types of businesses are examined. It aims at equipping participants with the necessary knowledge and practical understanding for managing such risks and liabilities in their work environment. Further, it goes on to outline the key problem areas and traps that those involved in the subject areas need to be alerted.

The Seminar on Fundamentals of Negligence for Managers and Professionals was successfully held on 31 March 2016. Feedbacks are very positive. The visiting lecturers were **Mr. Oscar Tan, Barrister-at-law.**

*“Good case examples for more easy understanding”*
