

Seminar On

Essential Laws for Engineers

Co-organised with HKIE for CPD

Successfully Held on 27 January 2016

Legal knowledge is becoming more and more important to executives and business managers for enabling the proper discharge of their duties. Through this course, participants are provided with a comprehensive overview of the law of contract material to their daily tasks at work. To further enhance their understanding and to facilitate direct application of knowledge to their work, the course content is designed with the focus on those contracts commonly used in daily commercial transactions. It covers concisely the key areas of contract and tort and is tailor-designed to equip participants with the skills to avoid the common legal pitfalls in managing construction projects. Through real case example and daily situations, it further highlights the common problems and solutions that project professionals in the subject areas need to be alert to.

The Seminar on Essential Laws for Engineers was successfully held on 27 January 2016. Feedbacks are very positive. The visiting lecturers were **Mr. Isaac Yung**, Barrister-at-Law and **Ms. Kinsey Y. N. Kang**, Barrister-at-Law.
