

**Seminar on
Property Law Essentials
Essential Law for Managers and Executive Program Series**

(Jointly organised with ETBC)

Successfully Held on 26 & 28 April 2017

Land is one of the most valuable assets in modern societies. Thus, rights over land need regulation. Professionals and officials now deal with various issues touching and concerning land (e.g. possession of site, short-term tenancy and building management). Through real case sharing and review by eminent practitioners, this seminar offers highly practical training that focuses on the common issues and challenges facing managers and executives.

The Seminar on “Property Law Essentials” was successfully held on 26 & 28 April 2017. The visiting lecturer was **Dr. Alfred Sit, Barrister-at-law.**
